

### Description

Product Name : PX220  
Cas No. : 51732-57-1

### Application

PX200 is a powder type halogen-free phosphate ester flame retardant, whose superiority is demonstrated in good processibility, unique self-extinguishing flame retardant properties and good compatibility. It is recommended for use in PC, PC/ABS, PPO/HIPS and ABS.

### Benefits and Features

It is a highly efficient reactive aromatic bromine source. In some cases It's derivatives can be substituted for higher bromine-containing flame retardants , allowed for the highest level of bromine to be reacted into unsaturated polyesters at comparable monomer levels.

### Typical Properties

Appearance ..... White powder.  
Color (APHA) ..... 100 max.  
Acidity (mg KOH/g)..... 0.1 max.  
TPP content(wt.) % .....3.0 max.  
Phenol content(ppm)..... 500 max.  
Water content(wt.) %..... 0.1 max.  
Melting point °C..... 90 max.

These properties are typical but do not constitute a specification either in part or as a whole.  
Specification data is available on request from sales, customer service or customer technical service.

### Shipping Information

Transportation classification: not regulated for transportation  
Packing: 25kg net in nylon-lined kraft paper bag ; 600kg per pallet; 12mt per 20'FCL.
